Summary

This documentation will give you, the client, insight on how your website will be designed and formatted.

The Style Guide is a canvas that contains items such as the color palette, the typography, buttons, etc. Each of these items will be implemented within the website itself. The main pages have been implemented within this documentation. I would like for you to review each page carefully and decide whether or not these color schemes are right for your website.

Lastly, the approval page is where you will print your signature as well as the date to proceed with this project. Please let me know if you need further clarification.
